Student News Inside Student Programs

April 8, 2003

Volume 2, Issue 3

Welcome Claire Mizne!

The Science Technology Base-Education Program Office is pleased to announce that Claire Mizne is the new GRA Program Coordinator. Claire is originally from Memphis, Tennessee, and came to LANL with her fiancé Chris Beltran in December 2001. Claire received her master's degree from Indiana University in Linguistics and Teaching English as a Second Language. Claire is getting settled in and does not currently have a phone yet, but she can be reached through email at mizne@lanl.gov. Claire said "that being a GRA is a very exciting time in life, and she wants to make GRA internships here at LANL a good experience." Please join us in welcoming Claire to EPO!

Students! The Education Program Office is gearing up for the summer. EPO has completed the annual Mentor and Division Liaison Trainings for all employees at LANL. The training sessions were to update the mentors and liaisons about new student policies and summer activities. Since summer is just around the corner check out the LANL events calendar for upcoming student activities like workshops, the student picnic, and All Students' Meetings.

SA Has Elected A New Chair!

Robert Smith is the new SA Chair. He is originally from Chicago, IL. He is currently working as an intern for the Corrosion and Electrochemistry Team of MST-6 head by Robert Hanrahan. He graduated from Wright State University with a B.S. in Materials Science. He plans to go back to school to obtain a M.S. in Materials Science. Robert joined SA because he wants to make the student's experience at LANL as enjoyable as possible so that students would be happy to return again as students or full-time employees. SA will be putting on many student activities this summer that will be posted on the LANL events calendar.

Funding Available for Students

Have you recently received your degree? Looking for the most complete and up-to-date information on career and employment opportunities in the physical sciences? *Landing Your First Job: A Guide for Physics Students* is loaded with practical information that will help you land the job you're looking for, including cover letters, resume writing, interview preparation, and salary negotiation. It also includes the latest employment statistics and glimpses of physicists in the workplace. Designed exclusively for physics-educated individuals, *Landing Your First Job* is an unparalleled resource, available nowhere else. For more information about *Landing Your First Job: A Guide for Physics Students* check out their website at <http://www.aip.org/careersvc/resources.html> for more information.

HPE INC. / HSF SCHOLARSHIP PROGRAM

Application Period: March 5 to June 2, 2003

Award Amount: \$1,000 to \$2,500

The Society of Hispanic Professional Engineers and the Hispanic Scholarship Fund have partnered to provide scholarship opportunities to students pursuing degrees in the engineering, mathematics, science, and computer science fields. This program is available to 2003 high school graduates 2003 community college transfer students, four-year university undergraduates, and graduate students. All students must be enrolled full-time in a degree seeking program in the US or Puerto Rico for the 2003-2004 academic year. The form can be downloaded from the SHPE Website at <http://www.shpe.org/scholarship> Good Luck to All Applicants!!

Know a student who is not receiving Student News, Student Views? Invite them to contact eramirez@lanl.gov to get on the list serv.

About The Education Program Office...

The Education Program Office is dedicated to developing an employment pipeline for the Laboratory. Efforts begin with K-12 students and teachers and progress through undergraduate and graduate level students. The following teams are located within the Education Program Office: the Math and Science Academy Outreach team, the Laboratory's Student Program Coordination team and the Critical Skills Development Program team. We strive to enhance the learning environment at the Laboratory for both the students and Laboratory staff members.
